

## **Guided Tours at GSS Autumn Workshop, 01.10.2015 at Fraunhofer Institute UMSICHT in Oberhausen**

Four guided tours at Fraunhofer UMSICHT are offered at the GSS Autumn Workshop. Each guided tour will take about 20 minutes. We will divide the audience of the Workshop into subgroups of 15-20 people for the tours. Each group will do all guided tours. Please find more information about the guided tours below.

### **Catalysis Laboratory (heterogeneous catalysis)**

Department Chemical Energy Storage – Group Catalytic Processes

<http://www.umsicht.fraunhofer.de/en/divisions/energy/departments/chemical-energy-storage.html>

### **Energy Storage Laboratories (redox flow battery test laboratory, lithium-battery test laboratory)**

Department Chemical Energy Storage – Group Electrochemical Processes

<http://www.umsicht.fraunhofer.de/content/dam/umsicht/en/documents/energy/redox-flow-battery-lab.pdf>

<http://www.umsicht.fraunhofer.de/content/dam/umsicht/en/documents/energy/lithium-batterylab.pdf>

### **High pressure tanning**

Department Material Systems and High Pressure Technology – Group Impregnation and Leather

<http://cleantan-fraunhofer.de/>

### **Pilot plant for the production of Particles from Gas Saturated Solutions (PGSS)**

Department Material Systems and High Pressure Technology – Group Impregnation and Leather
