

THE GSS PRESENTS THE
"First GSS Summer School"
Lecture Series

10TH & 11TH JUNE 2014
RUB CONFERENCE CENTER

	TUESDAY, 10.06.2014
9:15 – 10:00	Philip Ball, PhD, Science Writer, UK - <i>"Communicating Science"</i>
10:00 – 10:45	Prof. Daniel Harries, Fritz Haber Research Center, Hebrew University of Israel, Israel - <i>"Solvation and Depletion Forces as a Driving Force for Self- Assembly"</i>
11:15 – 12:00	Prof. Minhaeng Cho, Dept. of Chemistry, Korea University, Seoul - <i>"Nonlinear Electronic and Vibrational Spectroscopic Probing of Solvation Dynamics"</i>
12:00 – 12:45	Prof. James M. Lisy, Dept. of Chemistry, University of Illinois, USA - <i>"Combining Infrared Photodissociation Spectroscopy with Density Functional Theory- Molecular Dynamics; A Marriage of Experiment and Theory to Address Intermolecular Interactions Relevant to Solvation"</i>

Interested persons are cordially invited to attend!
